

STRIPE

<https://stripe.com>

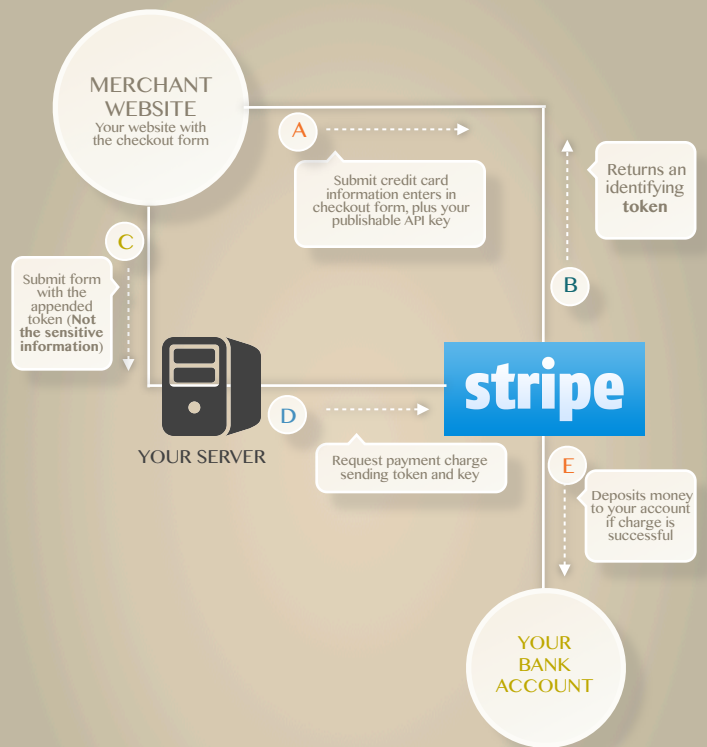

Stripe is a payment processing solution that provides a simple way for business owners to receive payments online without having to get a merchant account, worry about credit checks, monthly fees, monthly minimums, or even PCI compliance.

CHARGING A CUSTOMER FROM YOUR WEBSITE

COMMON ONLINE PAYMENT PROCESS

PAYMENT PROCESS USING STRIPE

HOW TO PROCESS PAYMENT INFORMATION USING A CUSTOM FORM

```
<!DOCTYPE html>
<html lang="en">
<head>
  <!-- Link the Stripe lib -->
  <script type="text/javascript" src="https://js.stripe.com/v2/"></script>

  <script type="text/javascript">
    //Set publishable key that identifies your website
    Stripe.setPublishableKey('YOUR_PUBLISHABLE_KEY');

    var stripeResponseHandler = function(status, response) {
      var $form = $('#checkout-form');

      if (response.error) {
        $form.find('.errors').text(response.error.message);
        $form.find('button').prop('disabled', false);
      } else {
        //Append token (id, last 4 digits, type) to form, re-submit

        var token = response.id;
        $form.append($('
```

Include stripe.js

Set your publishable key id which identifies you with Stripe

Get the stripeToken's ID and append it to the form. Resubmit

Request a token for the customer to Stripe

```
<body>
  <h1>Buy something amazing</h1>
  <!-- Create a checkout form -->

  <form action="" method="POST" id="checkout-form">
    <span class="errors"></span>
    <div class="form-row">
      <label>Name on the Credit Card: </label>
      <input type="text" size="20"/>
    </div>

    <div class="form-row">
      <label>Credit Card Number: </label>
      <input type="text" size="20" data-stripe="number"/>
    </div>

    <div class="form-row">
      <label>CVC</label>
      <input type="text" size="4" data-stripe="cvc"/>
    </div>

    <div class="form-row">
      <label>Expiration (MM/YYYY)</label>
      <input type="text" size="2" data-stripe="exp-month"/>
      <span> / </span>
      <input type="text" size="4" data-stripe="exp-year"/>
    </div>

    <button type="submit">Submit Payment</button>
  </form>

</body>
</html>
```
